PROFESSIONAL SUMMARY

Versatile Computer Science Engineer specializing in Information Security and Software Development. Skilled in designing, developing, and securing enterprise applications with hands-on expertise in Network Security, Vulnerability Analysis, SIEM Log Management, REST API Integration, and Full-Stack Engineering. Eager to contribute to high-impact engineering and cybersecurity initiatives.

EDUCATION

UIET – Panjab University, Chandigarh M.E. in Computer Science (Cyber Security) CGPA: 8.5	Sep 2025 – Oct 2027
Chandigarh University, Punjab B.E. in Computer Science (Information Security) CGPA: 8.01	Aug 2022 – May 2025

EXPERIENCE & INTERNSHIPS

SafeAeon Inc. SOC Analyst Intern • Monitored and analyzed real-time security alerts utilizing industry-leading tools: Rapid7, SentinelOne, and Avanan Email Security. • Investigated active cyber threats, executed incident triage, and strengthened overall enterprise security posture.	July 2025 – Sep 2025
Indian Cyber Crime Coordination Centre (I4C) – MHA Network Security Intern • Configured enterprise switches, managed firewalls, and provisioned server clusters with RAID, Hyper-V, TACACS+, and Dell iDRAC. • Contributed to designing high-availability, secure, and scalable network infrastructure for cyber incident operations.	Dec 2024 – Feb 2025
CBitss Java Developer Intern • Gained hands-on experience in API connectivity, JDBC database pipelines, and enterprise software architecture. • Developed intuitive user interfaces and optimized backend performance using NetBeans IDE through structured debugging.	Jan 2023 – Mar 2023

KEY PROJECTS

Image Forensics Steganographic Analysis System Python, OpenCV, NumPy, Pywt, Streamlit, Tkinter • Developed frequency domain image steganography (DCT, DWT, FFT) suite for covert data embedding and anti-forensic detection.	Jan 2026
Crypto-Jacking Real-Time Detection Tool Python, GUI, Multi-threading, Network Analysis • Built real-time CPU, GPU, memory, and packet monitoring daemon with automated malicious process termination and IP blacklisting.	Dec 2025
Tour & Travel Flight Search Platform HTML5, CSS3, JavaScript, Live Flight Data APIs • Created a flight search engine across 50+ international airports redirecting to 40+ official airline booking gateways.	Feb 2026
RAS : Enterprise SIEM Log Monitoring Solution Wazuh, Elasticsearch, Kibana, Fluentd, Linux, Bash • Architected log collection pipeline aggregating system, auth, and network logs with custom anomaly detection dashboards.	Jan 2025
Web Application Vulnerability Scanner Python, OWASP Top 10, CSRF & SQLi Detection • Engineered automated security scanner assessing web apps for SQL Injection and CSRF vulnerabilities with audit reports.	Aug 2024
Library Management Enterprise System Java, MySQL, NetBeans, JDBC • Designed role-based library workflow with book issuance tracking, automated overdue fees, and secure auth.	Aug 2023

TECHNICAL SKILLS

Programming / Scripting:	Java, Python, C, SQL, Bash, HTML5, CSS3, JavaScript, Git & GitHub
Cybersecurity & Defense:	Network Security, Cryptography, SIEM, OWASP Top 10, Linux Administration, Incident Response
Security & Audit Tools:	Nmap, Wireshark, Metasploit, Burp Suite, Aircrack-ng, Maltego, Rapid7, SentinelOne, Wazuh
Infrastructure & Systems:	RAID, Hyper-V, TACACS+ Configuration, Dell iDRAC, Switch & Firewall Setup
Databases & Frameworks:	MySQL, JDBC, Elasticsearch, Kibana, Fluentd, XAMPP Server

CERTIFICATIONS

- CompTIA Security+ (SY701)
- Certified Network Security Practitioner (CNSP)
- Certified APPSec Practitioner (CAP)
- ISO 27001 (ISMS) by Alison
- Cyber Threat Intelligence 101 (CTI-101)
